

Dear parents, guardians, community members, and teachers;

First, we hope that you all are having a wonderful start to the new school year! We would like to introduce this group for those who have not had the opportunity to hear from us. We are the Citizens' Advisory Committee (CAC) and have not been an entity for very long. You may have taken our Distance Learning survey over the summer and seen the results late summer.

We are looking for members for this group as well as for a Parent Teacher Organization (PTO). We are holding an in-person meeting (as of now) next Wednesday, September 15th at 7:30 pm in the SES Library. We would like to invite you all to come. Some of you have already shown interest and should have received a separate email.

The agenda for the meeting is attached. We will mostly be talking about forming a PTO so we can get that group started as soon as possible.

Here is the CAC's Mission, Vision, and Goals. We hope to get more people on board and hope to see you next week! Please let us know if you have any questions or concerns.

**CAC MISSION:**

**Provide advice to the Scotland Elementary School Board of Education on issues impacting educational policy, activities, and programming.**

**CAC VISION:**

**Create an educational atmosphere that is welcoming to community members, parents, guardians, and students that will enhance the student experience.**

**CAC GOALS:**

- 1. To help build community relationships and coordinate with SES for school and community events.**
- 2. To aid in the formation of a Parent Teacher Organization.**

Thank you!

CAC Team
